3912 PDS Advanced Kit

Portable Diagnostic Software

PDS Features:

- PDS is designed to be a user friendly and flexible diagnostic handheld tool.
- PDS programs run on included Pocket PC for extreme portability.
- Complete tool out of the box, no additional equipment needed to purchase.
- Portability provides PDS users flexibility for the service bay and for on-the-road testing.
- PDS supports most Ford, Lincoln and Mercury vehicles from 1996-2008 and forward that have a 16-pin DLC (OBDII) connector.
- A 1-Year software license is included with the PDS purchase. A valid software license automatically provides access to all Ford software packages that are available for the PDS.
- Supports Ford/Lincoln/Mercury CAN protocol.
- Warranty included.
- Live Technical Support included.
- See Functionality Matrix on reverse side.

PDS Advanced Kit Contents:

- Vehicle Communication Module (VCM).
- Hewlett Packard Pocket PC (includes cables, software, and docking station).
- 1-Year Ford diagnostic software license.
- 3ft 16-Pin DLC cable.
- 8ft 16-Pin DLC cable.
- PDS Soft case for P-PC & VCM.
- Initial PDS/PFM Software DVD.
- VCM AC Power Supply.
- Warranty (2 years on VCM & Cables, 1 year on HP items).

3912 PDS Advanced Kit

Portable Diagnostic Software

PDS Software

- PDS Advanced Kit includes diagnostic software with one year of updates.
- A valid software subscription allows access to the latest software, calibrations, and allows the user to continue to receive Software Technical Support.
- Software DVD is included with kit. Updates and calibration files can be obtained from www.motorcraftservice.com.
- Additional update subscriptions can be purchased from www.motorcraftservice.com or by phone when first year has expired.
- Access to PC or laptop with internet connection required for updates.

3912-01 VCM to PC USB Cable

- Expands functionality to the PDS Advanced Kit.
- Gives technicians the option of using their own PC or Laptop in place of the Pocket-PC.
- Engineered to electrically isolate the PC or Laptop from the vehicle.
- Durability tested to withstand repair shop environments.
